

Show your knowledge of HTML/CSS/JavaScript

First task:

1. <https://javascript.info/>
 - a. till section **Data Types**, inclusively (not 2.5 points, but section/раздел **Data Types**)
2. Collect all the solutions in one folder and push it to your git repo

Second task:

Create a simple to-do list app with all working actions.

- adding new item
- marking as “**done**” (checkbox)
- deleting item

ToDo List

<input checked="" type="checkbox"/>	First item	
<input type="checkbox"/>	Second item	
<input type="checkbox"/>	Third item
